## PROJECTS

**Library Management** | [link](#)  
(Python, Django, MySQL)

- Developed a Library Management System using Python, Django, MySQL and HTML, CSS Technologies.
- Implemented features for book inventory management, user registration, and book search functionality.

**Mens Fashion Site** | [link](#)  
(HTML, CSS)

- Create a static men's fashion website using HTML and CSS. Incorporate a modern design with a clean layout, showcasing various clothing categories.
- Implement responsive design for optimal viewing on different devices. Include a navigation menu, product pages with images and descriptions, and a user-friendly checkout process.
